

Home Health Assessment-Sharing the Responsibility

To Be Completed Every Morning Before School

1. Has child/children been diagnosed or had close contact in the last 14 days with someone diagnosed with COVID-19? (*Close contact is defined by the MN Department of Health as “within 6 feet for at least 15 minutes”*)

If ‘yes’, the child should not come to school, and may return 14 days after the last close contact. The school should be notified.

If ‘no’, the child may come to school if not experiencing any symptoms listed below.

2. Does the child exhibit two or more of these symptoms? If ‘yes’ the child should stay home and the parent should consult with the health care provider. The school should be notified.

Fever or chills

Diarrhea

New cough

Nausea or vomiting

Shortness of breath or difficulty breathing

Headache

Fatigue

Congestion or runny nose

Muscle or body aches

Sore throat

New loss of taste or smell

A fever 100.4 or higher

3. Take your child(ren)'s temperature. If temperature is 100.4 or higher, the student should stay home.
4. Has any health department or health care provider been in contact with you and advised you to quarantine?

If ‘yes’ child should stay home and the school should be notified.

If ‘no’ the child may come to school.
